London Markets,

Losnon, February 2.—The Stock Ex-change markets are sensitive and ner-vous. They opened very flat. A better feeling set in on the rumor that General Boulanger, French Minister of War, had resigned. Prices sell later on re-ports of lower prices on the Berlin Bourse. They have since become firmer on dispatches from Paris reporting a steadier market there.

The Paris Bourse.

Panis, February 2.—At noon, to-day, 3 per cent, rentes were 77 f. 2½c., a decline of 47½c. A better feeling then prevailed, and at 2 p.m. rentes had advanced to 77f. 76c. The quotation of 3 per cent, tentes, at the official close of the Bourse, this afternoon, was 78 f. 45c., an advance of 95c. over the quotations at the official close yesterday.

To Extirpate Contagious Diseases.

DENVER, February 2 - The following resolution was passed in both houses of the General Assembly to day:

He it resolved, That the Congress of the United State-be, and is hersby requested, to pass such laws as will effectually extipate all contagions diseases among live stock, by placing in the hands of competent agents of the general government full and complete power to act in all matters permaining thereto, and that a sufficient appropriat on be made. of not less than \$1 000,000, to pay all neces-sary expenses of the same.

At a meeting of the executive com-mittee of the Colorado Cartle Growers Association, held at Denver, to day, the following resolution was manimously

adopted:

Resolved, That the safety of the cattle industry of America imperatively demands that the general government shall adopt rigorous and prompt me-sures for the eradication of coatagious bovine diseases. We extrestly commend every feature of the Miller bill for the extirpation of contagious cattle diseases, but be leve that the Department of Agriculture, which has spent three years' time and a large amount of money in the investigation of bovine diseases, should be charged with its execution.

SPRINGFIELD, Ill., February 2-In the Lagislature, to-day, Merritt, Democrat called attention to a public speech made by one of the labor represent-

when the cancus for Senator was in progress.

Merrit replied that he had been in the Legislature nineteen years and had never been tendered a bribe, while the labor reform leader was offered a bribe in less than ten days after appearing in the house and then failed to notify the regislature.

Bealin, February 2. - The Cologne Gazette, in an article headed "Are the War Apprehensions Justified?" points out that France is preparing to form in the shortest time possible, in the event the shortest time possible, in the event of a war in the spring, a strategical line, which she delayed forming in 1870. Germany must, therefore, either take ne dful counter measures or summon France to reduce her frontier garrison. The Govette further announces that government will take the necessary steps to prevent Aleace Lorraine being overrun with French troops after the declaration of war.

The Togbiatt confirms the announcement of the calling out of reserves, and says that the drilling of men will be begun in the western provinces.

A dispatch from Paris to Pesther-Lloyd says: "President Grevy and Premier Goblet are making superhuman efforts to preven the outbreak of war."
